

GUEST WI-FI MADE SIMPLE FOR ALASKA BUSINESSES

Give guests the convenient Wi-Fi experience they expect - without building or managing your own captive portal system.

Built for Alaska Hospitality

RV Parks & Campgrounds

A cleaner alternative to shared passwords.

Lodges & Cabins

Professional access for remote properties.

Hotels & Tours

Flexible access for rooms, visitors, and seasonal operations.

Your Internet. A Better Guest Experience.

AK Aurora Access adds a managed guest-access layer to your existing compatible internet connection. Guests join your Wi-Fi and see a professional captive portal with the access method that fits your business.

Complimentary

Included guest Wi-Fi.

Voucher / PIN

Codes issued by staff.

Included Access

Bundled with a stay or service.

Paid Access

Paid or metered access where appropriate.

More Than a Wi-Fi Password

Branded guest portal • Simple access management • Flexible supported deployments • Usage visibility • Seasonal-operation friendly

How It Works

1. Keep Your Internet

Use your existing compatible connection.

2. Add AK Aurora

A supported router/gateway manages guest access.

3. Guests Connect

Guests see a simple branded access page.

4. Stay in Control

Manage access and the guest experience.
